HIGHLIGHT THE APPROPRIATE YEAR LEVEL ACHIEVEMENT STANDARD BELOW INDICATING THE RELEVANT PART OF THE ACHIEVEMENT STANDARD FOR THE ASSESSMENT TASK.

Year 7 Achievement Standard

By the end of Year 7, students recognise that sacred texts reflect the audience, purpose and context of their human authors. They explain how sacred texts influence the life of believers. They explain the significance of Church teaching and basic principles of Christian morality for the way believers live out their faith, personally and communally.

Students investigate the beginnings of the Christian faith (c.6 BCE – c. 650 CE) and explain the role of key people and events in its development. They explain some ways in which Christianity shares common beginnings of faith with the other monotheistic religions (Judaism and Islam). They describe some ways in which the faith of believers is expressed, professed and lived out in different communities, past and present. They suggest reasons for change and continuity in the life of Church and religious communities over time and place. They explain the significance of prayer, ritual, sacraments and sacred texts for the faith journey of believers, personally and communally. They participate respectfully in a variety of prayer experiences, including formal prayers such as the Hail Mary and Our Father; meditative prayer including Lectio Divina and Ignatian Meditation; and meditative prayer practices including silence and stillness, and praying with icons and images.

Year 8 Achievement Standard

By the end of Year 8, students explain how words and images are used to represent the mystery of the Trinity. They interpret Old Testament covenant narratives and the actions and messages of some Old Testament prophets; identifying the unique relationship between God and God's people. They select evidence from Scriptural texts to show how God's saving plan for all creation was accomplished through the life, death and resurrection of Jesus Christ.

Students explain how believers past and present continue the mission of Jesus in the world, in times of challenge and change. They select evidence from the Acts of the Apostles to explain the significance of some key events, individuals and groups in the life of the early Church. They recognise and explain patterns of change and continuity in the Church from c.650 CE – c. 1750 CE, identifying the impact of the writings and key messages of significant reformers in the Church at that time. They analyse ways in which the Church is present and active in the world today: participating in liturgy and other personal and communal prayer experiences; responding to emerging moral questions, practising the cardinal virtues; giving witness to the ecumenical spirit. They explain the significance of initiation rituals in the Abrahamic religions (Christianity, Judaism, Islam) for the faith journey of believers. They participate respectfully in a variety of prayer experiences, including prayers from The Liturgy of the Hours; praying with scripture; and meditative prayer practices, including centred breathing and attending to posture.

Year 9 Achievement Standard

By the end of Year 9, students demonstrate how the application of Biblical criticism helps the reader's understanding, interpretation and use of Old Testament and New Testament texts. They examine the divergent understandings of God (Allah, God, G*d) in the monotheistic religions (Islam, Christianity, Judaism). They examine three foundational beliefs of Christianity (the Incarnation, Resurrection and Ascension of Jesus) and draw conclusions about the significance of these in the lives of believers.

Students refer to examples of the co-existence of good and evil throughout human history to form their own interpretation about the experience of sin in the world. They analyse the causes and effects of events and developments in the Church from c.1750 CE – c.1918 CE, and make judgements about their importance. They explain the significance of the writings of various religious and lay leaders at that time. They evaluate the impact of Catholic social teaching on an individual's moral behaviour; and on the Church's response to emerging moral questions. They explain the significance of the three forms of penance (prayer, fasting and almsgiving) and the celebration of the Sacraments of Healing (Penance and Anointing of the Sick) in the lives of believers past and present. They examine ways in which believers live their Christian vocation, and distinguish between their participation in the priestly, prophetic and kingly work of Jesus Christ. They analyse ways in which believers nurture their spiritual lives through personal and communal prayer experiences, including the prayers and writings of Christian spiritual fathers and mothers; prayers for forgiveness and healing; Christian Meditation and meditative prayer practices, including praying with labyrinths. They participate respectfully in a variety of these prayer experiences.

Year 10 Achievement Standard

By the end of Year 10, students explain how the mystery of God can be named and understood through the experience of the created world. They analyse core beliefs and practices of the major world religions (Christianity, Islam, Judaism, Hinduism and Buddhism) and explain how these reflect the human understanding of God or the 'Other'. They use evidence from Old Testament and New Testament texts to explain different representations of God by various human authors in different historical, social and cultural contexts and evaluate their application for a modern Australian context. They critically analyse the efforts of a range of Christian spiritual writings to search for the mystery of God in the midst of world events and the course of human history.

Students analyse ways in which the Church has responded to a range of emerging threats to both human ecology and environmental ecology. They explain the significance of various sources that guide the Church's action in the world (including the teaching of Jesus and the early Church; the principles of Catholic social teaching and the reasoned judgements of conscience) and that nourish the spiritual life of believers (including the Eucharist, and individual and communal prayer for justice, peace and the environment). They develop and justify their own response to a contemporary moral question, using evidence from these various sources to support their response. They participate respectfully in a variety of personal and communal prayer experiences, including meditative prayer; prayers for justice, peace and the environment; and meditative prayer practices.

CRITERIA SHEET – YEAR 9 IN CLASS PORTFOLIO – SCRIPTURE ANALYSIS: THREE WORLDS OF THE TEXT

Achievement Standard: Students demonstrate how the application of biblical criticism helps the readers' understanding, interpretation and use of Old Testament and New Testament texts.

Year Level Description: Students are introduced to two forms of Biblical criticism, namely form criticism and narrative criticism, and develop the ability to apply these to help their understanding, interpretation and use of a range of Biblical texts.

Religious Knowledge and Deep Understanding

The Church teaches that application of Biblical criticism (including form criticism and narrative criticism) helps the reader better understand the purpose and message of Biblical texts. The miracle stories and parables have historical and cultural settings, as well as well-defined structures. The intention of the human author is important in determining the nature of the truth revealed in the text (e.g. historical truth, factual truth, religious truth). Understanding, interpretation and use of Biblical texts by Christians have evolved over time.

Skills

Investigate the main features of form criticism (classification of texts into text types, structure of texts, function of text in terms of intended audience) and narrative criticism (the story aspect of the text e.g. plot, setting, characters, literary techniques).

Analyse text structures and language features of selected miracle stories and parables using form criticism and narrative criticism.

Comments: Well Done, Kasey! Some thoughtful responses to this lengthy and challenging scriptural text. You have expressed some clear understanding of the use of Biblical criticism in to interpret text for today's believers with relevant examples your own. It could be improved by connecting clearly the relationship between Sin & illness as seen in time of Jesus, the significance of healing on Na Sabath and consequences for Jesus. Also make use of vocab & sentence structures

The World of the Text

Summary of passage

Jesus was by the pool one day when he saw a man lying down who was very ill. Jesus approached him and asked if the man wanted to become well. The man said he had no one to help him and he couldn't help himself as he was so sick. Jesus told him "Stand up, take your mat and walk." The man was made well and got up and walked away with his mat.

This occurred on the day of the Sabbath. When other Jews saw the healed man carrying his mat they reminded him it was not lawful for him to carry his mat. The man replied saying that the man who healed him told him to take his mat and walk. The other Jews questioned him about who this man was but the healed man didn't know it was Jesus. Jesus later found the man in the temple and told him not to sin again. The man then left the temple realizing the man was Jesus. He told the other Jews who then began accusing Jesus of breaking the Sabbath. Jesus then told them that God, his Father was still at work so he is to be as well. This
